

Key Features:

- Offers rapid cleaning of marine growth
- Manipulator deployed
- Low hydraulic requirements
12-15LPM @ 140Bar
- Light weight
- 3000mtr rated

Lateral FlexiClean Mini

Cleaning Tools

FlexiClean is a highly efficient patent applied for ROV-deployed cleaning tool that quickly removes marine growth and debris on underwater structures and equipment.

The FlexiClean Mini has the same diameter as the Standard, but with only one layer of fingers it requires less hydraulic power from the ROV and can be run on smaller HPU's.

Lateral FlexiClean Mini

Cleaning Tools

Specifications

Dimensions	Motor Length (including handle)	300 mm
	Motor Height	200 mm
	Height (including handle)	230 mm
	Motor width (including handle)	100 mm
	Width of cleaning head (tip-tip)	600mm
Weight	Weight in air (including head)	5.1Kg
Hydraulics	Flow	12-15 LPM
	Pressure	140 Bar
RPM @ 15LPM – 140 Bar		300-400 RPM

System Components

Hydraulic Drive Motor	Operating Manual		
Rov Handle			
Flexiclean Head (sale / return if rental tool)			
Hydraulic Hose Set			
Transit Case
