

## Imenco Angel Shark T6-2 Subsea Laser

The Imenco Angel Shark T6-2 150mW Subsea Green Line Laser is the most powerful underwater survey laser available in the market. Primarily used for survey of underwater pipeline & underwater structure inspections. By mounting two lasers in a fixed bracket, calibrated at a set distance, measurements can be picked out from subsea video.

**\*\*Caution \*\* This laser is intended for Underwater Use Only\*\***

Main dimensions (ex conn.)	Ø 79 / 74 x 238
Wavelength	532nm
Output Power	150mW
Fan angle	60°air / 45°water
Lens system	Sapphire
Housing	Titanium
Depth rating	6.000 MSW
Standard connector	Seacon 5506-1508
Power requirements	24VDC (12 – 36) 8w
Mass in air	2,3 kg
Mass in water	1,3 kg
