

Imenco Silky Shark Subsea Line Laser

Imenco's Silky Shark Subsea Line laser is developed around a high quality Laser Module with 90° fan angle (in air). The line uniformity is very high, producing a clear, sharp line.

Main dimensions (ex conn.)	Ø 69mm x L 248mm
Wavelength	518nm
Output Power	50mW
Control	RS232 / TTL (other options available)
Fan angles	90°air / 65° in water (other angles available)
Lens system	Sapphire
Housing	Titanium
Depth rating	6.000 MSW
Standard connector	Seacon 5506-1508
Power requirements	24VDC (12 - 36) 6w
Mass in air	2,3 kg
Mass in water	1,3 kg
